

Complementary Resources

Version 1.2 – August 2006

Dear Client or Prospective Client

Every year I spend thousands of dollars on e-books, software, memberships and relevant Internet marketing or educational products. I also download dozens of free e-books and read hundreds of articles across a range of topics. I write dozens of articles. When time permits I attend seminars ... in future I plan to deliver them.

From all the products I buy, I choose a few to sell on commission. However, I have high standards for the stuff that I recommend and if a product doesn't 'cut the mustard', I give it the flick and move on to something else.

We offer a select range of products and don't associate ourselves with a third-party product unless it is a quality product with a user friendly download or access interface and a trial offer or money-back guarantee.

If you buy something I recommend, you can be sure it comes from a reputable firm, is a quality product, and will do what it claims it will.

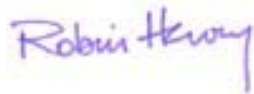

If You Have a Bad Experience Tell Me

If you buy one of the products we recommend and you have a less than satisfactory experience, please tell me. We'll check out your complaint and, if necessary, disassociate ourselves from the supplier. You can email me at any time on the email address shown above. I may not give you an extensive answer, but I do read every email I get that isn't spam.

Telephone is difficult because I'm overseas or otherwise away from my phone.

I hope you find something of use here that will help change your life for the better.

Sincerely

Principal Adviser
